

## SERVICE BRIEF

# ManagedCare+ forDesktops

Proactive Maintenance and Security Updates for your Workstations,  
Remote and On-Site I.T. Support for your Staff

### All-You-Can-Eat Helpdesk Support

*End-users are human.*

*Shouldn't their I.T. support be human too?*

Your end-users' time is best spent working for your organization, not managing I.T. issues. We make it simple by offering fast

and reliable 24x7x365 support for your users, as well as Proactive Desktop Remote Management and Maintenance for your workstations.

### The NDYNAMICS Desktop Platform

*Remote monitoring, maintenance, reporting, and cost-effective support.*

NDYNAMICS ManagedCare+ for Desktops provides comprehensive preventative maintenance services remotely. This solution is comprised of: a desktop/laptop agent within the NDYNAMICS technology platform with all of the intelligence built-in to conduct day to day preventive maintenance services, a bundled managed Anti-Virus Package, and remote access. Empower your staff by giving them direct access to unlimited phone and remote support. Our Flat-Rate resolves the issue of having to wait for approval to increase I.T. support costs. With Desktop & User Care, we generate detailed inventory reports and configurations related to all the preventive maintenance activities conducted through the NDYNAMICS Network Operations

Center (NOC). We track serial numbers, license expirations, warranties, vendor information, detailed service responses and much more. The platform comes with a built-in scripting engine and can also be used to deploy software applications remotely and automatically.

### “No I.T. question is too small for the NDYNAMICS Help Desk”

With NDYNAMICS Desktop & User Care, your end-users can create service tickets without having to worry about costing your company extra money. End-users can even call the NDYNAMICS Helpdesk with questions about a standard desktop applications. The NDYNAMICS Helpdesk is staffed with experienced Engineers with 2 to 6 years of desktop and server support experience. For no extra charge, we offer 24x7x365 phone support for after-hours and weekends.

### On-Site Support

When an issue cannot be resolved remotely, a technician will arrive on site with the tools and resources to resolve the issue at hand. This would be the case for hardware issues, issues involving a lack of connectivity to the network or Internet, and anything else that requires a physical set of hands on site. Monthly onsite hours are bundled with ManagedCare+ service.

### Features

- 24x7x365 Phone and Remote Support for your staff
- On-Site Support when needed
- Workstation Maintenance and Security Updates
